

ELEGANTLY MOUNT IPAD ON ANY SURFACE.

I PORT Surface Mount is the most elegant way to mount iPad on a wall, solid surface or onto glass. Surface Mount allows access to the iPad power button, microphones and speakers. iPad is contained in a minimalist aluminum bezel and stays protected by engaging locking components in the bezel as well as on the surface.

By utilizing I PORT's PoE and a standard CAT cable, Surface Mount can be up to 300 ft. from a power source or can be hard-wired to a network employing Apple's USB to Ethernet.

Available in black, silver or white finishes, Surface Mount is the easiest way to install iPad on any surface while ensuring iPad blends into your space.
